

IV MOSCOW NEUROLOGICAL CONGRESS ENDOVASCULAR TREATMENT OF ISCHEMIC STROKE

Location: Moscow, st. Novy Arbat, 36, Moscow Government building, sectoral conference halls A, B, C

SCIENTIFIC PROGRAMME JUNE 21st (Wednesday)

Conference Hall Sector A+B+C	
9:00 – 9:15	OPENING OF THE CONGRESS. GREETINGS <i>Chairpersons: B.G. Alekyan, N.A. Shamalov, E.U. Vasileva, D.V. Skrypnik, K.V. Anisimov, D.V. Kandyba, A.V. Savello, K.U. Orlov</i>
9:15 – 10:45	PLENARY SESSION <i>Chairpersons: B.G. Alekyan, N.A. Shamalov, E.U. Vasileva, D.V. Skrypnik, K.V. Anisimov, D.V. Kandyba, A.V. Savello, K.U. Orlov</i>
9:15 – 9:30	Current state of X-ray endovascular treatment of acute and chronic cerebrovascular accidents in the Russian Federation <i>B.G. Alekyan (Russia)</i>
9:30 – 9:45	How have approaches to thrombectomy changed in the United States in recent years? <i>Mikael Grigoryan (USA)</i>
9:45 – 10:00	Moscow trend in endovascular stroke treatment. From patient selection to technical aspects of intervention <i>D.V. Skrypnik (Russia)</i>
10:00 – 10:15	European trend in the development of endovascular stroke treatment <i>Jens Fiehler (Germany)</i>
10:15 – 10:30	Treatment of ruptured cerebral aneurysms <i>K.U. Orlov (Russia)</i>
10:30 – 10:45	Population characteristics of patients with occlusion of a large cerebral artery and the preferred tactics of thrombectomy in China <i>Hongxing Han (China)</i>

10:45 – 11:05 BREAK 1

Conference Hall Sector A+C		Conference Hall Sector B	
11:05 – 12:30	TECHNICAL ASPECTS OF THROMBOEXTRACTIONS <i>Chairpersons: D.V. Skrypnik, D.V. Kandyba, K.V. Anisimov, L.L. Klykov</i>	11:15 – 12:15	A MODERN VIEW ON SECONDARY PREVENTION OF DISTURBANCES IN LIPID METABOLISM: AN INTERDISCIPLINARY APPROACH <i>Chairpersons: E.U. Vasileva, M.V. Yezhov (Satellite symposium supported by Novartis Pharma)</i>
11:05 – 11:20	Patients selection for distal, medium vessel occlusions <i>Iris Grunwald (United Kingdom)</i>	11:15 – 11:30	Modern approaches to the diagnosis and treatment of patients with lipid metabolism disorders <i>M.V. Yezhov (Russia)</i>
11:20 – 11:35	Technical aspects of intervention in distal lesions of the cerebral bed <i>K.V. Anisimov (Russia)</i>	11:30 – 11:45	Inclisiran: from theory to practice of using the drug <i>A.I. Sapina (Russia)</i>
11:35 – 11:50	Endovascular interventions in patients with intracranial artery occlusions against the background of intracranial atherosclerosis <i>D.V. Kandyba (Russia)</i>	11:45 – 12:00	The secondary prevention of ischemic stroke. Where is the place for innovation? <i>M.S. Cherepyansky (Russia)</i>

11:50 – 12:05	PFO closure: technical aspects and complications <i>Jan Kovac (United Kingdom)</i>	12:00 – 12:15	Discussion. Q&A
12:05 – 12:20	Technical aspects of contrast use reduction and navigation improvement for coronary and cerebral interventions <i>D.V. Skrypnik (Russia)</i> (supported by PHILIPS LLC)		
12:20 – 12:30	Discussion. Q&A		
12:30 – 13:00	BREAK 2		
13:00 – 14:25	FEATURES OF THE APPROACH TO STROKE TREATMENT IN DIFFERENT REGIONS <i>Chairpersons: A.V. Savello, K.V. Anisimov, A.V. Azarov, D.G. Gromov</i>	13:00 – 14:00	CONTINUITY OF THERAPY IN HIGH CARDIOVASCULAR RISK PATIENTS <i>Chairpersons: A.U. Lebedeva, M.V. Yezhov</i> (Satellite symposium sponsored by Abbott Laboratories LLC)
13:00 – 13:15	How to organize the work of a hospital with a large flow of patients for thrombectomy? The concept of direct admission to the operating room bypassing CT <i>D.A. Sahakyan (Armenia)</i>	13:00 – 13:20	Dyslipidemia through the eyes of a healthcare administrator <i>A.U. Lebedeva (Russia)</i>
13:15 – 13:30	Endovascular stroke treatment in St. Petersburg <i>A.V. Savello (Russia)</i>	13:20 – 13:40	Patient with dyslipidemia after surgery: continuity of hospital and outpatient clinic <i>A.I. Sapina (Russia)</i>
13:30 – 13:45	Stroke program in Moscow region <i>A.V. Azarov (Russia)</i>	13:40 – 14:00	Patient cardiovascular risk management development vector <i>M.V. Yezhov (Russia)</i>
13:45 – 14:00	The results of endovascular treatment of ischemic stroke in Moscow over 5 years. What conclusions can be drawn? <i>K.V. Anisimov (Russia)</i>		
14:00 – 14:15	Population characteristics of patients with occlusion of a large cerebral artery and the preferred tactics of thrombectomy in India <i>Anil Dhal (India)</i>		
14:15 – 14:25	Discussion. Q&A		
14:25 – 14:40	BREAK 3		

Time	Conference Hall Sector A+C
14:40 – 16:05	DIAGNOSTICS AND THERAPEUTIC TECHNOLOGIES FOR ACUTE ISCHEMIC STROKE. ANALYSIS OF CLINICAL CASES <i>Chairpersons: B.G. Alekryan, A.V. Arablinsky, D.V. Kandyba, A.V. Savello, D.V. Skrypnik</i> (Satellite symposium supported by Cardiomedics LLC)
14:40 – 14:50	Instrument line updates: FlowGate2, Catalyst7, Vecta 71, Vecta 74. Balloon guide and aspiration as essential elements of effective combined thrombus extraction D.V. Kandyba (Russia, St. Petersburg)
14:50 – 15:00	From admission to the operating room: a review of the clinical practice of the leading stroke centers in the Russian Federation. A clinical example from the City Clinical Hospital No. 23 named after I.V. Davydovsky of the Moscow Health Department K.V. Anisimov (Russia, Moscow)
15:00 – 15:10	Clinical case from the Regional Clinical Hospital No. 1 (Krasnodar) A.I. Bely (Russia, Krasnodar)

15:10 – 15:20	Clinical case from the Federal State Budgetary Institution Clinical Hospital No. 1 (Volynskaya) of the Administration of the President of the Russian Federation <i>E.B. Molokhoev</i> (Russia, Moscow)
15:20 – 15:30	Clinical case from the City Clinical Hospital named after S.P. Botkin of the Moscow Health Department <i>V.A. Tsurkan</i> (Russia Moscow)
15:30 – 15:40	Clinical case from City Clinical Hospital No. 15 named after. O.M. Filatov of the Moscow Health Department <i>S. R. Dzhurakulov</i> (Russia, Moscow)
15:40 – 15:50	Clinical case from the Regional Clinical Hospital (Ryazan) <i>D.E. Surov</i> (Russia, Ryazan)
15:50 – 16:00	Clinical case from the Stavropol Regional Clinical Hospital <i>S.V. Ermakov</i> (Russia, Stavropol)
16:00 – 16:05	Discussion. Q&A
16:05 – 16:20	BREAK 4
16:20 – 17:45	STROKE IN VERTEBROBASILAR INSUFFICIENCY <i>Chairpersons: A.V. Savello, D.V. Skrypnik, D.V. Kandyba, V.M. Sysoev, A.B. Mironkov</i>
16:20 – 16:35	Posterior circulation stroke due atherothrombotic lesion. How should we treat? <i>Adnan Siddiqui</i> (USA)
16:35 – 16:50	Evidence base for endovascular treatment of patients with lesions in vertebrobasilar insufficiency <i>A.V. Savello</i> (Russia)
16:50 – 17:05	Stroke with occlusion in the posterior circulation. Clinical case <i>V.M. Sysoev</i> (Russia)
17:05 – 17:20	Atherothrombotic occlusion of a basilar artery. Intervention step by step (interactive presentation) <i>D.V. Skrypnik</i> (Russia)
17:20 – 17:35	Clinical case of endovascular treatment of ischemic stroke in vertebrobasilar insufficiency with anatomical features <i>K.V. Anisimov</i> (Russia)
17:35 – 17:45	Discussion. Q&A

JUNE 22nd (Thursday)

Время	Conference Hall Sector A+C
9:00 – 10:25	HYBRID AND ENDOVASCULAR APPROACHES TO THE RECANALIZATION OF TANDEM LESIONS <i>Chairpersons: K.V. Shcherbatyuk, V.V. Akhmetov, K.V. Anisimov, E.V. Ploshenkov</i>
9:00 – 9:15	Should we involve surgical team for tandem lesion treatment <i>Martin Wiesmann</i> (Germany)
9:15 – 9:30	Endovascular approach for tandem lesion. State of art lecture <i>Kenneth Snyder</i> (USA)
9:30 – 9:45	Use of emergency ultrasound in patients with stroke for planning and assistance in endovascular interventions <i>A.V. Kostin</i> (Russia) (supported by PHILIPS LLC)
9:45 – 10:00	Clinical case of a hybrid approach to tandem lesions (interactive presentation) <i>K.V. Anisimov</i> (Russia)
10:00 – 10:15	When vascular surgery may be needed for patients with ischemic stroke? Clinical cases <i>K.V. Shcherbatyuk</i> (Russia)
10:15 – 10:25	Discussion. Q&A
10:25 – 10:45	BREAK 1
10:45 – 12:10	EMBOLIC SYNDROME <i>Chairpersons: D.V. Skrypnik, V.N. Manchurov, S.D. Klimovsky, S.R. Dzhurakulov, M.V. Parkhomenko</i>
10:45 – 11:00	Mesenteric ischemia. Patient selection and techniques for recanalization <i>A.V. Kostin</i> (Russia)
11:00 – 11:15	From diagnostic aspects to neurointerventional methods in the coronary bed in patients with coronary embolism

	<i>M.B. Oskanov</i> (Russia)
11:15 – 11:30	A stent-free approach to coronary artery recanalization. Clinical cases <i>E.R. Gasparyan</i> (Russia)
11:30 – 11:45	Endovascular treatment of visceral embolism: mesenteric and renal arteries <i>G.G. Ghazaryan, S.D. Klimovsky, T.S. Mirilashvili</i> (Russia)
11:45 – 12:00	Infarction-stroke. Clinical options and tactics <i>D.V. Skrypnik</i> (Russia)
12:00 – 12:10	Discussion. Q&A
12:10 – 12:40	BREAK 2
12:40 – 14:05	GENERAL ISSUES OF THROMBOEXTRACTION IN PATIENTS WITH ISCHEMIC STROKE <i>Chairpersons: A.G. Gutsalyuk, A.L. Lukyanov, M.V. Strutsenko, A.V. Snitsar</i>
12:40 – 12:55	Subarachnoid hemorrhages in patients with ischemic stroke during endovascular thromboextraction <i>A.L. Lukyanov</i> (Russia)
12:55 – 13:20	Application of automatic injection systems in endovascular surgery for the treatment of patients with stroke <i>V.K. Piltakyan</i> (Russia) (supported by Bayer JSC)
13:20 – 13:35	Perioperative monitoring of hemodynamics in patients with endovascular thromboextraction <i>A.G. Gutsalyuk, K.A. Salimov</i> (Russia)
13:35 – 13:50	CT-like images in the cath lab to treat patients with ischemic stroke <i>K.V. Anisimov</i> (Russia) (supported by PHILIPS LLC)
13:50 – 14:05	The use of platelet IIb/IIIa receptor inhibitors in patients with carotid stroke <i>M.U. Volodyukhin</i> (Russia)
14:05 – 14:20	BREAK 3
14:20 – 15:45	ROUND TABLE <i>Chairpersons: K.V. Anisimov, D.V. Skrypnik, A.V. Kostin</i> (supported by Exten Medical LLC)
14:20 – 14:35	Tandem lesions
14:35 – 14:50	Distal occlusions
14:50 – 15:05	Intracranial atherosclerosis
15:05 – 15:20	Stroke in vertebrobasilar system
15:20 – 15:35	Poll-quiz
15:35 – 15:45	Discussion. Q&A
15:45 – 16:00	BREAK 4
16:00 – 17:15	ANALYSIS OF CLINICAL CASES <i>Chairpersons: D.V. Skrypnik, L.L. Klykov, D.N. Samochatov, A.V. Arablinsky, A.I. Analeev, I.G. Sitko</i>
16:00 – 16:15	Treatment of cerebral aneurysms using angiographic systems programs <i>A.E. Petrov</i> (Russia, St. Petersburg) (supported by PHILIPS LLC)
16:15 – 16:25	Difficult access with thrombectomy. Change of approach step by step <i>N.A. Rudenko</i> (Russia, Kurgan)
16:25 – 16:35	Endovascular treatment of a patient with tandem occlusion <i>V.N. Manchurov</i> (Russia, Moscow)
16:35 – 16:45	Recanalization of chronic occlusion of the internal carotid artery <i>K.S. Isaev</i> (Russia, St. Petersburg)
16:45 – 16:55	Analysis of a clinical case <i>A.I. Analeev</i> (Russia, Mytishchi)
16:55 – 17:05	Analysis of a clinical case <i>S.R. Dzhurakulov</i> (Russia, Moscow)
17:05 – 17:15	Discussion. Q&A
